DIGEST

Agricultural Exports Experience Strong Growth In 1978 (see p.5). U.S. agricultural exports in 1978 surged 24 percent above their year-earlier rate, reaching a total of \$29.4 billion. Increases in foreign demand and higher prices contributed to the gain. A record agricultural trade surplus offset part of the large nonagricultural deficit.

Calendar 1978 U.S. Agricultural Imports Of \$14.8 Billion Rise 10 Percent From A Year Ago (see p.40). U.S. agricultural imports totaled \$14.8 billion in 1978, 10 percent higher than a year ago. Value gains in imports of bananas, cocoa beans, cocoa products, rubber, live animals, dairy products, fruits, vegetables, meat, tobacco, wine, and malt beverages more than offset declines in coffee, tea, sugar, and vegetable oils.

Contributors to this issue included Susan A. Libbin and H. Christine Collins. Principal coordinators are Robert L. Tontz, Thomas A. Warden, and Thomasine B. McCall, Statistics Program Area, Foreign Demand and Competition Division, Economics, Statistics, and Cooperatives Service, Washington, D.C. 20250. (202) 447-8926

AGRICULTURAL EXPORTS

EXPERIENCE STRONG GROWTH IN 1978

Increased foreign demand and higher prices contributed sharply to the rise in 1978's U.S. agricultural exports. Record export demand for U.S. farm products reflected dry conditions and poor crop yields in Asia, Latin America, and Africa.

During 1978, farm product exports reached a record \$29.4 billion, 24 percent above 1977's \$23.6 billion. Monthly exports averaged almost \$2.5 billion, compared to less than \$2.0 billion a year earlier. November's value passed \$2.8 billion for the first time, and fourth-quarter exports peaked at \$8.2 billion.

Calendar year 1978's export increase produced an agricultural trade surplus of \$14.6 billion. Excluding donations of food under Title III, Public Law 480, the net gain to the balance of payments was nearly \$14.2 billion. This agricultural trade surplus helped offset part of the \$45 billion deficit in nonagricultural trade.

Total volume of principal agricultural exports reached a record 132 million tons, 23 percent above 1977's 107 million ton level.

Sources of demand growth in 1978 included Asia, the U.S.S.R., Eastern Europe, Latin America, and Africa. Rapid increases occurred in exports to China, Pakistan, Iraq, Brazil, the U.S.S.R., Spain, and most of the North African countries.

Record farm product export values in 1978 included corn, soybeans, soybean oil, protein meal, cotton, tobacco, fruits and preparations, rice, sunflower seeds, tallow, cattle hides, poultry meat, edible offals, and grass seeds.

U.S. wheat exports jumped to 34 million tons during 1978, up 43 percent from the previous year. Because of higher prices, export value soared 60 percent to over \$4.3 billion. Strong foreign demand -- especially in Latin America, Asia, Africa, and Western Europe -- followed 1977's poor crop yields in those regions. Wheat shipments to Asia expanded about 54 percent, reaching more than 14.8 million tons. China, Pakistan, and Iraq received most of the increase in wheat deliveries to Asia. Wheat exports to Latin America jumped 84 percent between 1977 and 1978, with Brazil, Chile, Mexico, and Colombia accounting for much of the gain.

Data provided in table 6 show U.S. wheat exports by regions and selected countries after adjustment of Census Bureau returns for more than 1.9 million tons (\$237 million) of wheat shipments through Canadian ports. The wheat transshipments through Canadian ports were destined for Western Europe, China, Pakistan, and North Africa.

Coarse grain exports in 1978 were 16 percent above a year ago, totaling a near record 56 million tons. Higher prices produced a 20-percent value gain to nearly \$5.85 billion. Brisk foreign demand in Asia, Latin America, the U.S.S.R., and Eastern Europe more than offset diminished shipments to Western Europe. Destinations of the over 2.8 million tons (\$267 million) of coarse grains shipped through Canadian ports were primarily Spain and the U.S.S.R. (see tables 7 and 9).

Some export markets in the European Community continue to be overstated because of transshipments through Western European ports. While the extent of 1978's transshipments is still unknown because of reporting lags, in 1977 an estimated 550,000 tons of coarse grains (\$57 million) passed through the Netherlands, mainly to the United Kingdom, Norway, Switzerland, the U.S.S.R., and the German Democratic Republic.

About 1 million tons (\$100 million) of exports moved through the Federal Republic of Germany, destined for Eastern Europe countries. ^{1/} As transshipments in fiscal year 1977/78 were lower, especially through the Federal Republic of Germany, comparisons with previous year's export levels should be considered tentative for countries affected by transshipments through European ports.

Soybean exports broke all previous records as foreign countries increased their protein meal feeding rates to promote meat production. Export volume increased nearly 28 percent to over 20 million tons, while value rose about 14 percent due to somewhat lower prices. Spain, Japan, Taiwan, Italy, Mexico, and the U.S.S.R. took most of the additional exports.

Exports of sunflower seeds more than doubled between 1977 and 1978, because of short supplies in other parts of the world and sharply increased U.S. production. Exports exceeded 1.3 million tons (almost \$344 million), compared to 622,000 tons (\$152.5 million) in 1977. The Federal Republic of Germany, the Netherlands, Portugal, Mexico, France, and Italy were major destinations.

1/ PRELIMINARY

CALENDAR 1978 U.S. AGRICULTURAL IMPORTS OF \$14.8 BILLION RISE 10 PERCENT FROM A YEAR AGO

U.S. agricultural imports, which rose considerably during the last 3 months of the year, totaled \$14.8 billion in 1978, 10 percent higher than a year ago. Value gains in imports of bananas, cocoa beans, cocoa products, rubber, live animals, dairy products, fruits, vegetables, meat, tobacco, wine, and malt beverages more than offset declines in coffee, tea, sugar, and vegetable oils. December imports, at nearly \$1.4 billion, reached their highest level since last March.

Noncompetitive imports totaled \$7 billion in 1978, 4 percent higher than the previous year. Except for coffee and tea, inflation increased the value of most noncompetitive imports.

Green coffee (comprising 25 percent of 1978's total imports) remained the leading agricultural import. Imports for 1978 totaled \$3.7 billion, despite a decline in roastings, consumption, and prices. Even though unit import prices fell from \$1.97 per pound in 1977 to \$1.55 per pound in 1978, the volume of green coffee imported actually increased 22 percent. Since the October 1978 low of \$1.31 per pound, unit import prices of green coffee have risen.

In 1978, 55 percent of all green coffee imports were supplied by six countries -- Colombia (15 percent of the total), Brazil, Mexico, Guatemala, Indonesia, and Ecuador. There were substantial volume increases in imports from Colombia, Brazil, Ecuador, Indonesia, Honduras, Zaire, Ethiopia, and the Malagasy Republic.

Due to unit price declines in 1978, the value of tea imports fell 35 percent and the volume 25 percent. In 1977, tea imports were unusually high due to high coffee prices.

The largest percentage of value gains for noncompetitive products during 1978 occurred in imports of cocoa powder -- 75 percent; cocoa beans, 38 percent; and chocolate, 30 percent. These three products accounted for 18 percent of all noncompetitive imports in 1978. The volume gains for these commodities were less, due to price increases.

Imports of competitive products totaled \$7.8 billion in 1978, 16 percent higher than a year ago. Except for sugar, vegetable oils, nuts, and molasses, all items increased.

Due to strong domestic demand and inadequate supplies, live animal imports in 1978 totaled \$367 million, 46 percent above year-earlier levels. Imports of meat and meat products totaled nearly \$1.8 billion in 1978, a 43-percent increase from a year ago. The gain in fresh and frozen beef and veal accounted for nearly two-thirds of all meat imports. Inflation caused the value to rise nearly 60 percent, while the quantity imported rose only 19 percent. Unit import prices rose from \$1,273 per metric ton in January to a record \$2,305 per metric ton in November. Low U.S. production, inadequate supplies, and June's high prices resulted in a 200-million pound quota increase on imports permitted under the Meat Import Law. The value of pork imports rose nearly one-fifth in 1978, and the quantity by a slightly smaller amount.

Competitive import increases occurred in dairy products, fruits (chiefly concentrated orange juice), vegetables (mostly fresh tomatoes, cucumbers, peppers, canned mushrooms, and soups), hides and skins, tobacco, wine, and malt beverages. Unusually large gains occurred in imports of concentrated orange juice (from \$27 million in 1977 to \$109 million in 1978) as result of the freeze in the winter of 1977/78 which led to a reduction in stocks, high prices, and increased imports from Brazil.

Sugar imports in 1978 totaled \$723 million, 29 percent below a year earlier. The decline was partly due to January's imposition of higher import fees. Sugar imports, very low during the first 4 months of 1978, have since risen slightly. The leading 1978 sugar suppliers were the Philippines, 22 percent; the Dominican Republic, 16 percent; Brazil, 13 percent; Australia and Colombia, each 5 percent; and Argentina, 4 percent. Most exports from sugar supplying countries declined, although Belize, Colombia, Belgium, and Thailand produced increases.

Vegetable oil imports totaled nearly \$486 million, 6 percent less than their year-earlier total. Coconut oil imports (accounting for over half of all vegetable oil imports) rose slightly, while imports of palm oil (comprising 14 percent of all vegetable oils) declined by two-fifths. Large domestic supplies of soybean and cottonseed oils, at prices below palm oil, and reduced world supplies of palm oil, led to reduced import levels.
